

Curriculum vitae

Personal information	Name: Teresa Bottari Nationality: Italian Address: Spianata S. Raineri, 86 Messina Mail: teresa.bottari@irbim.cnr.it https://scholar.google.com/scholar?hl=it&as_sdt=0%2C5&q=teresa+bottari&oq=teresa+bo https://www.researchgate.net/profile/Teresa-Bottari ORCID: https://orcid.org/0000-0001-8471-8973
Education	2003: Ph.D. in <i>Health of Marine Environment, Fish Pathology and Quality</i> at the University of Messina 2000-2002: Ph.D. student in “ <i>Health of Marine Environment, Fish Pathology and Quality</i> ” at the University of Messina November 1999: Professional license to practice February 1999: Degree in Veterinary Medicine at the University of Messina
Positions held	January 2008 - current: Researcher, Institute for Biological Resources and Marine Biotechnologies (IRBIM), National Research Council (CNR), Messina July 2004-December 2007: Research grant. University of Messina November 2004 - July 2007: Subject expert for the scientific-disciplinary sector VET/05, Infectious Diseases. University of Messina November 2003 - May 2004: Research grant. National Research Council (CNR) Istituto Talassografico – Messina June 2003 - July 2004: Tutor - Post-graduate specialization course in “Biotechnological Applications in Mariculture” (1500 hours). Progetto Impresa piccola soc. coop. A r.l.
Scientometric data:	Publications with IF: n. 52 Google scholar citation index: 854 Google scholar H index: 16 Scopus citation index: 537 Scopus H index 12
Research fields:	Distribution and characterization of microplastics in Mediterranean and Antarctic fish species.

Identification of marine parasites that can be used as "biological tags" for the discrimination of fish stocks.

Ecology and biology of fish, molluscs and crustaceans; life-history traits (age and growth, maturity and reproduction).

National and International Expeditions:

Partecipation to many oceanographic cruises on Italian research vessels (CNR vessels: Dallaporta and Maria Grazia) and to experimental trawl surveys in the Mediterranean Sea in the ambit of GRUND (1997, 2000, 2001, 2002) and MEDITS project (2000, 2001, 2002) on Italian and Spanish oceanographic vessels.

Coordination of oceanographic cruises in southern Tyrrhenian Sea trawlable bottoms. CNR vessels: "Dalla Porta" and "Maria Grazia" in 2010, 2011 and 2012.

Coordination of oceanographic cruise along the northern coasts of Sicily aimed to evaluate the presence of floating microplastic in water and in the gastrointestinal tract of demersal fish species. 2017.

Research projects:

Operative Unit Leader

2013-2015. Italian Ministry - Ritmare Project "Use of parasite as biological tags for fish stock identification".

2017. Programma Nazionale di Raccolta Dati nel settore della pesca e dell'acquacoltura – WP 3 “Campionamento biologico” (CAMPBIOL) - GSA 10 (Mar Tirreno centro-meridionale).

2019-2022. Italian Ministry of University and Research. National Research Program in Antarctica - Study of bacteria resistant to antibiotics and heavy metals (water, sediment and *Trematomus bernacchii*) and detection of heavy metals.

Software:

Statistica, Primer v. 6, Past, Mysstat.
